KL SL SMALL 400 24

Cod. 30Y005

24V LIGHT kit for sliding gates up to 400 Kg

- Integrated digital control unit
 - Painted aluminum casting
 - Precise and safe operation
 - Self-learning of opening and closing times
 - Synchronized motor operation via AX SYNCRO module
 - Magnetic limit switch
 - Programming via 3 buttons and display
 - Radio receiver plug-in connector
 - 2 inputs for photocells with self-test function
 - 2 inputs for mechanical or resistive safety edges
- Courtesy light output
 - ADI connector for optional modules
 - Slow start (programmable start ramp)
 - Compliant with EU 2023/826 standby ecodesign regulation
 - Auxiliary output always on for activators
 - Stainless lock with secured mechanism
 - Up to 90% reduced electricity consumption
 - Adapter plates for replacing similar products
 - Obstacle detection

The kit consists of:

1 irreversible electromechanical gearmotor complete with DIGITAL control unit and magnetic limit switch
1 pc. 23Y001

2 pcs. TX TOH2 433C 433.92 MHz rolling code transmitter with 2 push buttons	1 pc. RX MR 433 433.92 MHz plug-in receiver
---	---

KL SL SMALL 600 24

Cod. 30Y007

24V LIGHT kit for sliding gates up to 600 Kg

- Integrated digital control unit
 - Painted aluminum casting
 - Precise and safe operation
 - Self-learning of opening and closing times
 - Synchronized motor operation via AX SYNCRO module
 - Magnetic limit switch
 - Programming via 3 buttons and display
 - Radio receiver plug-in connector
 - 2 inputs for photocells with self-test function
 - 2 inputs for mechanical or resistive safety edges
- Courtesy light output
 - ADI connector for optional modules
 - Slow start (programmable start ramp)
 - Compliant with EU 2023/826 standby ecodesign regulation
 - Auxiliary output always on for activators
 - Stainless lock with secured mechanism
 - Up to 90% reduced electricity consumption
 - Adapter plates for replacing similar products
 - Obstacle detection

The kit consists of:

1 irreversible electromechanical gearmotor complete with DIGITAL control unit and magnetic limit switch
1 pc. 23Y003

2 pcs. TX TOH2 433C 433.92 MHz rolling code transmitter with 2 push buttons	1 pc. RX MR 433 433.92 MHz plug-in receiver
---	---

Complete your system

AX WIFI01
WI-FI module for managing via app Able to Use
Code 16Y011

AX WIFI02
WI-FI module for managing via app Able to Install
Code 16Y018

TX TOH2 433C
433.92 MHz rolling code transmitter with 2 push buttons
Code 10Y001

TX TOH4 433C
433.92 MHz rolling code transmitter with 4 push buttons
Code 10Y005

PX XS 24
Miniaturized wall-mounted photocells
Code 13Y002

FX FLASH 24
LED flashing light
Code 14Y002

AX PIL 50
Pair of aluminium pillars for photocells (50 cm)
Code 16Y012

AX PIL 100
Pair of aluminium pillars for photocells (100 cm)
Code 16Y013

AX PIL ADAPTER
Adapter for mounting of AX KEY-S, AX KEY-B, AC READER, PX M 24 on AX PIL100 pillars
Code 16Y017

AX KEY-B 433
433.92 MHz digital radio switch
Code 20Y012

AX KEY-S 01
Outdoor key switch burglar-proof
Code 20Y001

KL SL MEDIUM 1000 24

Cod. 30Y013

24V LIGHT kit for sliding gates up to 1000 Kg

- Integrated digital control unit
 - Painted aluminum casting
 - Precise and safe operation
 - Obstacle detection
 - Self-learning of opening and closure times
 - Synchronized motor operation via AX SYNCRO module
 - Magnetic limit switch
 - Programming via 3 buttons and display
 - Modular radio receiver plug-in connector
 - 2 inputs for photocells with
- self-test function
 - 2 inputs for mechanical or resistive safety sensitive edges
 - Courtesy light output
 - ADI connector for optional modules
 - Compliant with EU 2023/826 standby ecodesign regulation
 - Auxiliary output always on for activators
 - Stainless lock with secured mechanism
 - Up to 90% reduced electricity consumption

The kit consists of:

1 irreversible electromechanical gearmotor complete with DIGITAL control unit and magnetic limit switch
1 pc. 23Y005

2 pcs. TX TOH2 433C 433.92 MHz rolling code transmitter with 2 push buttons	1 pc. RX MR 433 433.92 MHz plug-in receiver
---	---

KL SL MEDIUM 1200 230

Cod. 30Y014

230V LIGHT kit for sliding gates up to 1200 Kg

- Integrated digital control unit
 - Painted aluminum casting
 - Precise and safe operation
 - Obstacle detection
 - Self-learning of opening and closure times
 - Synchronized motor operation via AX SYNCRO module
 - Magnetic limit switch
 - Programming via 3 buttons and display
 - Modular radio receiver plug-in connector
 - 2 inputs for photocells with
- self-test function
 - 2 inputs for mechanical or resistive safety sensitive edges
 - Courtesy light output
 - ADI connector for optional modules
 - Compliant with EU 2023/826 standby ecodesign regulation
 - Auxiliary output always on for activators
 - Stainless lock with secured mechanism
 - Up to 90% reduced electricity consumption

The kit consists of:

1 irreversible electromechanical gearmotor complete with DIGITAL control unit and magnetic limit switch
1 pc. 23Y006

2 pcs. TX TOH2 433C 433.92 MHz rolling code transmitter with 2 push buttons	1 pc. RX MR 433 433.92 MHz plug-in receiver
---	---

Complete your system

AX WIFI01
WI-FI module for managing via app Able to Use

Pair of aluminium pillars for photocells (50 cm)
Code 16Y012

AX PIL 100
Pair of aluminium pillars for photocells (100 cm)
Code 16Y013

AX PIL ADAPTER
Adapter for mounting of AX KEY-S, AX KEY-B, AC READER, PX M 24 on AX PIL100 pillars
Code 16Y017

AX KEY-B 433
433.92 MHz digital radio switch
Code 20Y012

AX KEY-S 01
Outdoor key switch burglar-proof
Code 20Y001

SL LARGE 2500I

Cod. 23Y010

Irreversible electromechanical rack actuator motor reducer with inverter for sliding gates weighing up to 2500 kg

- Integrated digital control unit
- Painted aluminum casting
- Precise and safe operation
- Obstacle detection
- Self-learning of opening and closure times
- Synchronized motor operation via AX SYNCRO module
- Magnetic limit switch
- Modular radio receiver plug-in connector
- 2 inputs for photocells with self-test function
- 2 inputs for mechanical or resistive safety sensitive edges
- Courtesy light output
- ADI connector for optional modules
- Slow start (programmable start ramp)

Code 20Y012

AX KEY-S 01
Outdoor key switch burglar-proof
Code 20Y001

KL LN MEDIUM 3000 24E

Cod. 29Y010

24V LIGHT kit for swing gates
with leaves up to 3 m in length

- Equipped with opening mechanical limit stop
- Mechanical closing stop accessory
- Single version for both right and left leaves
- Adjustable brackets for quick engine installation
- Aluminum frame
- Unlocking handle with protected lock
- Plug-in connector for electrical connections

The kit consists of:

2 irreversible electromechanical actuators
with mechanical stop in opening

2 pcs. 22Y008

LN LARGE 6000 24

Cod. 22Y006

Irreversible electromechanical 24V
actuator for swing gates with leaves
up to 6 m in length

- Equipped with mechanical opening and closing stop
- Sturdy mechanical transmission in steel and bronze for maximum durability and reliability
- Aluminum release handle with personalized key
- Large connection compartment located at the top of the engine

Control unit to be used

1 pc. CX EV02
Universal digital control unit
for swing or sliding gates -
Output for 2 motors - 24V

Code 12Y002

Outdoor key switch
burglar-proof
Code 20Y001

HY LARGE 6000 230I

Cod. 22Y017

Irreversible hydraulic actuator for swing gates with leaves up to 6 m in length

- Ideal for intensive use
- Single version for right and left leaf
- Opening and closing lock
- Closure mechanic shock absorber
- Adjustment via adjustable valves for both push and pull

Control unit to be used

CX EVO1
Universal digital control unit for swing or sliding gates - Output for 2 motors - 230V
Code 12Y001

CX FLEXY 433
Smart control unit for 230V motors
Code 12Y003

KL AR MEDIUM 2500 24

Cod. 29Y004

24V LIGHT kit for swing gates with leaves up to 2.5 m in length

- Easy installation on pillars of medium or big dimensions
- Obstacle detection
- Programmable acceleration and deceleration
- Self-learning of opening and closing times
- Operation in case of absence of power using backup battery
- Operation with solar power system
- Programming with 3 program buttons and display
- Plug-in adaptor for modular radio receiver
- 2 inputs for photocells with self-test function
- 2 inputs for mechanical or resistive safety edges
- Output for flashing light 24V with or without intermittence
- Courtesy light output
- Operational cycle counter with programmable maintenance reminders
- Wi-Fi module for motor control via app
- Auxiliary output always on for activators
- Compliant with new standby ecodesign regulation EU 2023/826

The kit consists of:

2 irreversible electromechanical actuators:
MASTER motor complete with DIGITAL control unit and SLAVE motor

	
2 pcs. TX TOH2 433C	1 pc. RX MR 433
433.92 MHz rolling code transmitter with 2 push buttons	433.92 MHz plug-in receiver

able. Motors for swing gates

KL UG MEDIUM 3500 24E

Cod. 29Y015

24V LIGHT kit for swing gates (underground mounting) with leaves up to 3.5 m in length

- Sealed motor reducer made entirely of aluminum with galvanised forged steel levers
- Opening up to 110° with the levers supplied
- Opening up to 360° with the accessory lever
- Version with 7 m long power cable
- The special mounting holes allow UG motors to be installed inside numerous existing models of foundation boxes
- Adjustable opening and closing mechanical stop
- Available with cataphoresis or stainless-steel foundation boxes
- In the absence of power, the gate can be operated manually by simply rotating a release lever

The kit consists of:

2 irreversible electromechanical actuators +
2 cataphoresis-finished steel foundation boxes

1 pc. CX EV02	2 pcs. TX TOH2 433C	1 pc. RX MR 433
Universal digital control unit for swing or sliding gates - Output for 2 motors - 24V	433.92 MHz rolling code transmitter with 2 push buttons	433.92 MHz plug-in receiver

BA MEDIUM 4000 24

Cod. 36Y001

Quick-opening road barrier for residential or multi-user passages up to **4 m wide**

- Funzionamento preciso e sicuro
 - Rilevamento ostacoli
 - Autoapprendimento dei tempi di apertura e chiusura
 - Rallentamento nella zona di fine corsa
 - Molla di bilanciamento inclusa
 - Barra in alluminio verniciato bianco (accessorio)
 - Centrale di comando digitale programmabile tramite 3 pulsanti e display
 - Connettore per ricevitore radio modulare a innesto
 - Connettore ADI per moduli opzionali
 - Ingresso per fotocellule con funzione di autodiagnosi
- Ingresso per coste di sicurezza meccaniche o resistive
 - Uscita luce di cortesia
 - Uscita per elettroventosa
 - Accelerazioni e decelerazioni programmabili
 - Funzionamento in caso di black-out utilizzando la batteria tampone
 - Funzionamento con sistema a energia solare
 - Gestione della striscia led RGB con modulo opzionale
 - Conforme alla normativa EU 2023/826 relativa al consumo in stand-by

able. Motors for garage doors

DC MEDIUM 1000 24

Cod. 25Y002

24V electromechanical gearmotor for sectional and balanced doors up to 15 sqm

- Accurate and safe operation with encoder
- Control panel with keypad and LCD display
- Operation during power outage with backup battery
- Operation with solar power system
- Plug-in adaptor for modular radio receiver
- Input for photocells or safety edges
- Input for an external start and stop button
- Output for flashing light 24V with intermittence
- Automatic learning of timings, slowdowns, and forces for both opening and closing phases
- Obstacle detection function
- Compliant with new standby ecodesign regulation EU 2023/826
- Wi-Fi module for motor control via app
